Technical Team Remarks :

Recommendation;

Being OEM of the Extruder machine , Coperion is recommended for this scope. Coperion performed this activity in 2016 also. In Technical proposal they have provided sufficient Supervisory crew to take care of Extruder process , Gear Box , Control sections , Cobra measurements for Day & Night shifts on all three units. They have observed our overall Maintenance window planned for activity and have clearly explained the requirements from site contractor as per requirement of technical proposal.
